Work Experience

Apidel Technologies

Software Developer

Jan 2026 - Present

Vadodara, Gujarat · On-site

- **API Architecture:** Architect and maintain APIs across a multi-service platform (ATS, IMS, Ticketing) using Node.js, Express.js, TypeScript, and MongoDB within an Nx monorepo serving enterprise clients
- **HRMS Development:** Contributed to an HRMS leave management system — built REST endpoints for leave requests, balances, and approvals using PostgreSQL with raw SQL, working within an Express.js 5 + TypeScript + Next.js stack
- **DevOps Setup:** Set up Docker containerization and GitLab CI/CD pipelines from scratch — managing service orchestration, environment config, and PM2/Nginx on Ubuntu VPS
- **AI-Augmented Delivery:** Use Claude Code and GitHub Copilot daily to scaffold modules and reduce boilerplate, allowing faster feature iteration across the codebase

Self-Employed

Freelance Software Developer
